

Greater Norwich Call for Sites Guidance Notes

Preface

The Greater Norwich Call for Sites Guidance Notes provide general guidance that all respondents to the Call for Sites should be aware of. It also sets out more specific guidance on how to complete the Greater Norwich Call for Sites Response Form.

All respondents are encouraged to read the guidance notes thoroughly before submitting a site for consideration. If you have any questions relating to the Call for Sites, or these guidance notes, then please contact the Greater Norwich Local Plan team on 01603 306603 or email callforsites@gnlp.org.uk

General Guidance

1. Type of Sites that should be submitted to the “Call for Sites”

Interested parties are invited to promote sites within the areas of Broadland District, Norwich City and South Norfolk, excluding the area of the Broads Authority, for future development or other land uses, including:

- Housing (including Gypsy and Travellers sites)
- Employment
- Retail
- Leisure
- Community uses
- Art, culture and tourism
- Mixed use development.

In terms of site size the Greater Norwich councils are inviting submissions on:

- Greenfield sites that are capable of delivering 5 or more homes or which are more than 0.25ha in size;
- Previously Developed Land, or brownfield sites, capable of accommodating development at any scale.

Please note that the starting point for the review assumes that all sites identified for development in a current plan remain appropriate and will not need to be replaced in the new Local Plan. Sites identified for a specific land use in current plans do not need to be promoted again through this process, unless a change of use is sought.

In all instances sites should only be submitted where the promoter will be able to clearly demonstrate that the site can be delivered for its proposed use before 2036. **Please be aware that there is no guarantee that a submitted site will be allocated for the suggested use.**

Call for Site Submission Form

All respondents promoting a new site for development should complete the 'Greater Norwich Call for Sites Submission Form'. The form should be completed as thoroughly and precisely as possible to enable an accurate assessment of the site to be made. A map that clearly identifies the boundaries of the proposed site should also be provided on an OS base and at a scale of no less than 1:2,500.

Please note that if you are promoting more than one site then a separate form should be completed for each site. If you jointly submitting a site, please endeavour to submit such a site only once, with all promoters' names included (to avoid any confusion about the same site being submitted twice by different people).

Submitting your response to the Call for Sites

Responses should be made electronically on the webform which is available at www.greaternorwichlocalplan.org.uk. Alternatively a response form can be downloaded and submitted by email to callforsites@gnlp.org.uk.

Completed hard copy forms can also be sent to:

Greater Norwich Local Plan Team
PO Box 3466
Norwich
NR7 7NX

All submissions should be made on or before **5pm on Friday 24 June 2016**.

Please note that anonymous submissions cannot be accepted as key details will need to be verified before a site can be allocated.

How will we use information submitted on the Site Submission Form?

The information provided on the Site Submission Form will be used as the basis for an assessment of whether the site should be allocated for the proposed use. All allocated sites will need to be in a suitable location, available for the

proposed land uses or developments and have a realistic prospect that the land uses or developments proposed can be delivered in an appropriate timescale. Unless there are very strong reasons to do so, a site would not be allocated on which the land uses or developments proposed could not be completed entirely by 2036.

Once the call for sites is closed the Greater Norwich Councils will undertake an initial assessment of the sites. This assessment will take a number of months to complete. If further information is required during this assessment the relevant Greater Norwich Council will contact you directly. A prompt response to any such request will be necessary to ensure your site can be properly considered. A site may not be able to be taken forward as an allocation if significant gaps in information exist.

Please note that the contents of the Sites Submission Form will be made available for public scrutiny. By submitting a response form to the Councils you are acknowledging that details contained in the form will be published in the public domain.

Respondents should avoid including any individual personal data, such as private addresses, contact details and signatures, except where necessary to complete the site submission form.

Commercially Sensitive or Other Confidential Information

The presumption will be that all information submitted on the Call for Sites form can be published for the purposes of transparency and public scrutiny.

If you intend to supply any information you consider to be commercially sensitive, or that is otherwise confidential, to help demonstrate that your site is available, suitable or that it can be developed as proposed then you are encouraged to contact us in advance to determine whether, and if so, how such information could be kept confidential.

For the avoidance of doubt or confusion, any commercially sensitive, or otherwise confidential, information included in a site submission form should be clearly marked as such.

Specific Guidance

Contact Details	
1a.	Fill out your name (first name and surname) and all contact details. If you are an agent please fill out your clients details.
1b.	Please select from the options provided to indicate your relationship to the site promoted.
1c.	If you are an agent please fill out your clients details in this section. If you are representing more than one client in relation to the same site then please provide details for each of your clients.
Site Details	
Submitting a Location Plan	
2.	<p>All 'Call for Sites' response forms must be accompanied by an acceptable Location Plan. To be acceptable, a location plan must be on a scaled base map, typically at a scale of 1:1,250 or 1:2,500. Each plan should show the direction of north.</p> <p>The promoted site must be edged clearly with a red line on the location plan. The identified site should, wherever possible, include all land necessary to carry out the proposed development, including but not limited to: access to the public highway including visibility splays, landscaping, car parking and areas of open space around buildings. If further land outside your clients control is necessary to carry out the proposed development then please show these as hatched areas on the submitted location plan.</p> <p>Proposed or potential points of access to the sites should be clearly marked.</p> <p>A blue line must be drawn on the plan around any other land you own which is either close to, or adjoins, but does not form part of, the proposed site.</p> <p>Please provide a full postal address for the site wherever possible. If the site does not have a postal address then please provide a grid reference and describe its location as clearly as possible.</p>
Site Ownership	
3a.	Please indicate the ownership status of the site choosing from the list of three options.
3b.	Please provide details of all landowners who hold an interest in the proposed site. If those details are the same as those provided in section 1a. or 1c. then you do not need to provide those details again. Please ensure that relevant title plans and deeds are provided wherever possible

	to enable the Councils to verify the ownership status of the site.
3c.	If the site is in multiple ownership then please indicate whether all landowners support your proposals for development on the site.
3d.	If not all landowners support your proposals for development please identify and explain the nature of the dispute and its potential impact on the development of the site for the uses proposed.
Current and Historic Land Uses	
4a.	Please describe the current use of the site e.g. employment, agricultural etc. If the site currently has more than one use, then please describe all the uses on the site.
4b.	Has the site been previously developed, or would it fall under the National Planning Policy Framework's (NPPF) definition of Previously Developed Land? The NPPF definition can be found in annex 2 of the framework which is available here: https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/6077/2116950.pdf
4c.	Please describe all previous uses of the site, the dates during which these uses were ongoing and provide any relevant planning history, including planning application numbers, if known.
Proposed Future Use	
5a.	Please provide a short description of the proposed development. Example: "Residential Development comprising approximately 100 homes, public open space, landscaping and associated infrastructure". If you are proposing a site exclusively for designation as Local Green Space then please go straight to question 6a.
5b.	Please tick the use or uses that you are proposing.
5c.	Use this section to provide any further details about the proposed development that you are able. This should include the approximate number of homes, amount of commercial floorspace (if not already clear from your answer to question 5a) and could also include potential details regarding access to the highway, drainage infrastructure or landscaping etc, if known.
5d.	If you think that your proposal would result in any particular benefits to the local community then please describe these benefits in this section.
Local Green Space	
<p>A Local Green Space designation is a way to provide special protection against development for green areas of particular importance to local communities. This type of designation can, however, only be used:</p> <ul style="list-style-type: none"> • Where the green space is in reasonably close proximity to the community it 	

serves;

- Where the green area is demonstrably special to a local community and holds a particular local significance, e.g. because of its beauty, historic significance, recreational value, tranquillity or richness in wildlife; and,
- Where the green area concerned is local in character and not an extensive tract of land.

Further information on Local Green Space Designations can be found here:

<http://planningguidance.communities.gov.uk/blog/guidance/open-space-sports-and-recreation-facilities-public-rights-of-way-and-local-green-space/local-green-space-designation/>

6a.	Please explain how the local communities could use or benefit from the site's designation and what those benefits would be, e.g. would it be used for recreation, or is it of benefit for nature conservation, or for reasons of landscape amenity.
-----	---

6b.	Please describe why you consider the site to be of particular local significance e.g. it has a long established recreational use which is heavily used by the community, there is particular richness and abundance of wildlife, the view to or across the site are of particular heritage importance. Please provide any evidence you have that supports your views.
-----	---

Site Features and Constraints

To ensure that your site can be accurately assessed, please answer this section of the form as fully and precisely as possible.

7a.	Please explain (if known) how the site could be accessed, whether suitable visibility splays can be achieved and whether there are any public rights of way that affect the site and how the development would address these.
-----	---

7b.	Please describe any potential physical constraints to development including the surface features of the site, including whether there is any significant change in levels across the site. Explain how these constraints could affect the development proposed.
-----	---

7c.	Please confirm whether the site's ground conditions are stable or unstable. For example, has there been any history of subsidence? What is the cause of any instability and would it affect the proposed development? If the development is affected then how will this be overcome? Is the site contaminated or potentially contaminated? Has any survey work been undertaken in this regard?
-----	--

7d.	Please confirm whether the site is liable to flooding from any source including if it lies within an identified flood zone and if there have been any historic flooding incidents on the site. If you have undertaken any flood risk assessment work then please attach this to the response form.
-----	--

7e.	Please confirm whether any ransom strips, covenants or any other third party rights would affect the proposed development. If there are any legal issues that will affect the development of the site then please explain its implications and how any issue can be overcome.
7f.	Please describe any natural or semi-natural features within or immediately adjacent to the site including woodlands, hedgerows, mature trees and watercourses. Are there any environmental designations within or adjacent to the site? What would the impact of the proposed development be on biodiversity and/or geodiversity?
7g.	(If known) please describe any heritage assets on or adjacent to the site including listed buildings, scheduled monuments, conservation areas or historic parklands? Explain the impact of the proposed development or land use on any such assets (if known).
7h.	Describe the neighbouring land uses. Explain whether any neighbouring uses have any implications for the development of the site, or if the development of the site would have any implications for neighbouring uses e.g. noise levels impacting levels of amenity.
7i.	Please confirm if there are there any existing buildings or uses on the site that would need to be relocated or cease to allow the development to proceed? Do any buildings need to be demolished? Are you proposing to refurbish or convert any buildings as part of the proposed development?
7j.	Please explain any other site constraints not covered above and their implications for the development of the site.
Utilities	
8a.	Please indicate which utilities are available, or could be made available to enable the development of the site.
8b.	If you indicate that services could be made available then please provide any evidence to support your case.
Availability	
9a.	Please tick the relevant box indicating when the site could be made available for development.
9b.	Please explain the timing and availability of your site.
Market Interest	
10.	Please indicate what (if any) level of developer interest there has been in the site to date.
Delivery	
11a.	Please tick the relevant box indicating when the proposed development could be begun.

11b.	Please explain how many years you think it would take to complete the site. Indicate your expected average annual yearly completions (if known).
Viability	
12a.	Please tick the relevant box to confirm that you understand that there will be policy and Community Infrastructure Levy (CIL) contributions that will need to be met in addition to the other development costs of the site.
12b.	Please tick the relevant box to confirm whether you know of any abnormal costs associated with the development of the site that might affect viability.
12c.	If you answered yes to 12b then please provide details of any abnormal costs associated with the site including their implications for the development of the site.
12d.	Please confirm whether you currently consider the site viable for the development proposed, taking into account current policy and CIL contributions and any abnormal development costs identified.
12e.	If you have indicated that you consider the site to be viable then please provide any viability appraisal, or other evidence, which supports your claim.
Other Relevant Information	
13.	Please provide any other relevant information that supports your case for the development of the site you propose not covered by the above sections.

Greater Norwich Call for Sites Submission Form

FOR OFFICIAL USE ONLY	
Response Number:	GNLP0177
Date Received:	

This form is to be filled out by any interested parties who want to promote a site for a specific use or development to be allocated in the Greater Norwich Local Plan.

Only one form should be submitted for each individual site i.e. it is not necessary for a separate form to be completed for each landowner on a single site in multiple ownerships. However, a separate form must be completed for each individual site submitted.

Your completed form should be returned to the Greater Norwich Local Plan team no later than **5pm on Friday 24 June 2016**.

By email: callforsites@gnlp.org.uk

Or, if it is not possible submit the form electronically,

By Post to:

*Greater Norwich Local Plan Team
PO Box 3466
Norwich
NR7 7NX*

The responses received as part of the Greater Norwich Local Plan Call for Sites will be published and made available for public viewing. By submitting this form you are consenting to the details about you and your individual site(s) being stored by Norfolk County Council and shared with Broadland District Council, Norwich City Council and South Norfolk District Council, and that the details of the site will be published for consultation purposes.

Further advice and guidance can be obtained by visiting the Greater Norwich Local Plan website or by contacting the Greater Norwich Local Plan team directly:

Website: www.greaternorwichlocalplan.org.uk

E-mail: callforsites@gnlp.org.uk

Telephone: 01603 306603

1a. Contact Details	
Title	Mr
First Name	John
Last Name	Long (Hethersett landowners)
Job Title (where relevant)	
Organisation (where relevant)	
Address	Bidwells 16 Upper King Street NULL Norwich Norfolk
Post Code	NR3 1HA
Telephone Number	01603 229414 NULL
Email Address	john.long@bidwells.co.uk

1b. I am...
Planning Consultant

--

1c. Client/Landowner Details (if different from question 1a)

Title	
First Name	
Last Name	
Job Title (where relevant)	
Organisation (where relevant)	
Address	
Telephone Number	
Email Address	

2. Site Details

Site location / address and post code (please include as an attachment to this response form a location plan of the site on an scaled OS base with the boundaries of the site clearly shown)	Land north, north-east, south-east and west of Hethersett NULL NULL Hethersett Norfolk
Grid reference (if known)	TG145057

Site area (hectares)	222 hectares
Site parish	Hethersett
Site district	South Norfolk

Site Ownership	
3a. I (or my client)...	
Is the sole owner of the site	
3b. Please provide the name, address and contact details of the site's landowner(s) and attach copies of all relevant title plans and deeds (if available).	
3c. If the site is in multiple landownerships do all landowners support your proposal for the site?	NULL
3d. If you answered no to the above question please provide details of why not all of the sites owners support your proposals for the site.	

Current and Historic Land Uses
4a. Current Land Use (Please describe the site's current land use e.g. agriculture, employment, unused/vacant etc.)

agriculture/open undeveloped land.

4b. Has the site been previously developed?

No

4c. Describe any previous uses of the site. (please provide details of any relevant historic planning applications, including application numbers if known)

Land adjacent the northern parcel was subject of planning consent: 2011/1804/O 1,195 home, school, open space and associated infrastructure.

Proposed Future Uses

5a. Please provide a short description of the development or land use you proposed (if you are proposing a site to be designated as local green space please go directly to question 6)

Residential development (up to 3000 homes on approx. 111 hectares sts; Commercial/employment development; supporting infrastructure, open space and potential Country Park (land at Hethersett Race Course between B1172 and A11) on rest of site area approx. 111 hectares. The landowners control additional land around Hethersett, which can be drawn down as part of the landowners agreement if required.

5b. Which of the following use or uses are you proposing?

Market Housing	Yes
Affordable Housing	Yes
Residential Care Home	Yes
Gypsy and Traveller Pitches	No
Business and offices	Yes
General industrial	Yes
Storage and distribution	Yes
Tourism	No
Recreation & Leisure	Yes
Community Use	Yes
Public Open Space	Yes
Other (Please Specify)	NULL

5c. Please provide further details of your proposal, including details on number of houses and proposed floorspace of commercial buildings etc.

Total site area currently promoted is 222 hectares on land north, north-east, south-east and west of Hethersett. Additional land is available for higher levels of development if required.

Assuming 50% of site is developable for residential use (this reflects the gross to net development ratios on Hethersett North planning permission site) up to 3,000 new homes (assuming 27 dwellings per hectare). The remaining 111 hectares is available for other uses, including commercial development (B1, B2 and B8) (up to 10 hectares / approx. 40-50,000 sqm of commercial floor space sts); open space/sports pitches; community facilities. Additionally, land at Hethersett Racecourse can be made available for a Country Park (with public access) if full housing allocation is taken forward. Potential opportunities for care home(s) if need demonstrated.

5d. Please describe any benefits to the Local Area that the development of the site could provide.

The site would provide homes (market and affordable) in the Norwich Policy Area, close to major centres of employment with good public transport links such as the NRP, N&N Hospital and town centre. The proposal will provide job opportunities during construction and at proposed commercial area (incl. adjacent the existing factory Site) and open space which would be available for new and existing residents. The Country Park will be available for all residents and will help divert recreational pressure from the Norfolk Broads. New primary schools would be providing and funding for the extension of Hethersett Academy.

Local Green Space

If you are proposed a site to be designated as Local Green Space please complete the following questions. These questions do not need to be completed if you are not proposing a site as Local Green Space. Please consult the guidance notes for an explanation of Local Green Space Designations.

6a. Are you proposing a site to be designated as a Local Green Space?

No

6b. Which community would the site serve and how would the designation of the site benefit that community.

NULL

6c. Please describe why you consider the site to be of particular local significance e.g. recreational value, tranquillity or richness in wildlife.

NULL

Site Features and Constraints

Are there any features of the site or limitations that may constrain development on this site (please give details)?

7a. Site Access: Is there a current means of access to the site from the public highway, does this access need to be improved before development can take place and are there any public rights of way that cross or adjoin the site?

There are a number of potential access points from existing and proposed public highway. Certain access may need to be improved, although the B1172/Colney

Lane access is being improved as part of current commitments in the village. The area around Hethersett is relatively poorly provided with designated public rights of way. To the south of the village there is extensive parkland around the old racecourse and Hethersett Hall, but the only public rights of way are a path running from the church to Station Lane, one running south-eastwards past Hethersett Hall from Norwich Road, and Suckling Lane which is designated a byway. To the North, the only definitive rights of way are a path running across fields North-westwards from Old Melton Road towards Melton Hall, and a small stretch northwards near Holly Tree Farm, Beckhithe to the North of Hethersett. These rights of way, which can be incorporated into the design. The site has multiple means of access from existing and proposed public highway.

7b. Topography: Are there any slopes or significant changes of in levels that could affect the development of the site?

The development part of site is flat. There is a Government oil pipeline crossing the site, and HV electricity cables crossing the site, although both can be factored into the design. There is known archaeology at the western part of the site, which can be designed into the scheme.

7c. Ground Conditions: Are ground conditions on the site stable? Are there potential ground contamination issues?

Ground conditions are stable, with no unusual ground contamination anticipated.

7d. Flood Risk: Is the site liable to river, ground water or surface water flooding and if so what is the nature, source and frequency of the flooding?

A Drainage Strategy Appraisal for the provision of foul drainage, surface water drainage and associated flood risk has been undertaken by Bidwells. The stage one appraisal has identified the existence of two unnamed watercourses to the north-west and the south-east of Hethersett, respectively. The Environment Agency Indicative Flood Maps show no significant fluvial or tidal flood risks in the area, although the unnamed minor watercourse to the north-west of the site, which includes a small part of the proposed growth location, is shown as being at risk of flooding. Anglian Water records indicate that foul flows currently discharge to a balancing tank off Station Road to the south of the village, before continuing towards Cringleford and then onto Whitlingham Sewage Treatment Works, via two pumping stations.

7e. Legal Issues: Is there land in third party ownership, or access rights, which must be acquired to develop the site, do any restrictive covenants exist, are there any existing tenancies?

There is an existing landowners agreement in place encompassing the promoted land, with the ability for additional land to be included within the agreement should it be needed. The landowners control further tracts of land around Hethersett. The Landowners have a track record of securing promoters, obtaining planning consent and releasing land for development (Hethersett North Planning Consent).

7f. Environmental Issues: Is the site located next to a watercourse or mature woodland, are there any significant trees or hedgerows crossing or bordering the site are there any known features of ecological or geological importance on or adjacent to the site?

There are no listed buildings within the promoted site, although there are some listed buildings/features adjacent parts the site.

An Archaeological Desk-Based Assessment has been prepared by NAU Archaeology to consider the historic significance and archaeological potential of the land surrounding Hethersett. The report suggests that the area is one of reasonably high archaeological potential, with notable features being two prehistoric round-barrows (both Scheduled Monuments) representing constraints to future development, although their location is not in area proposed for residential development. A medieval moated site and two medieval hollow-ways are also represented by visible remains. Artefactual material recovered during field walking has led to the identification of several further sites where archaeological remains are likely to survive. These sites include a probable Roman villa complex, a possible early Saxon cemetery and several potentially significant medieval and post-medieval structures. Analysis of cartographic sources has also identified locations where further post-medieval structures once stood, although these are likely to be of more limited significance.

Delivery Issues

The two prehistoric round-barrows referred to above are located outside of the likely Development Area and therefore do not present an obstacle to development at Hethersett. Further archaeological features such as the Roman villa complex at the western part of the promoted land could potentially be incorporated within areas of open space or green corridors enabling any significant finds to remain in situ.

7g. Heritage Issues: Are there any listed buildings, Conservation Areas, Historic Parklands or Schedules Monuments on the site or nearby? If so, how might the site's development affect them?

There are no listed buildings within the promoted site, although there are some listed buildings/features adjacent parts the site.

An Archaeological Desk-Based Assessment has been prepared by NAU Archaeology to consider the historic significance and archa

7h. Neighbouring Uses: What are the neighbouring uses and will either the proposed use or neighbouring uses have any implications?

There are various neighbouring residential areas, particularly at the western part of the site. A large part of the neighbouring land is the subject of a planning permission that has yet to be built.

7i. Existing uses and Buildings: are there any existing buildings or uses that need to be relocated before the site can be developed.

There are no existing buildings/uses that need to be relocated before the site can be developed.

7j. Other: (please specify):

Please see attached constraints plan. There are no insurmountable constraints. Thickthorn junction will need to be upgraded. It is understood Highways England have funding committed to the junction's upgrade.

Utilities

8a. Which of the following are likely to be readily available to service the site and enable its development? Please provide details where possible.

Mains water supply	Yes
Mains sewerage	Yes
Electricity supply	Yes
Gas supply	Yes
Public highway	Yes
Broadband internet	Yes
Other (please specify):	NULL

8b. Please provide any further information on the utilities available on the site:

An initial servicing strategy appraisal was undertaken by Bidwells relating to the existing infrastructure and provision of potable water, gas, electricity and telecommunications for the proposed Growth Location. The appraisal has identified that off-site reinforcement works comprising of a new water main from Little Melton Water Treatment Works and a new pumping station will be required. In respect of gas supply, an existing high pressure main crosses the eastern end of the development area and extensive medium pressure and low pressure mains are located within the general area of the development. It is understood that sufficient capacity exists in the upstream network to cater for the provision of connections to the new development.

Availability

9a. Please indicate when the site could be made available for the land use or development proposed.

1 to 5 years (by April 2021)

9b. Please give reasons for the answer given above.

The land is subject of a landowners agreement, and is available immediately, although in reality a planning process will need to be undertaken which will take at least 12 months. The planning application may be funded by promoters, developers or the consortium of landowners themselves. Following consent, the site will be sold to developers who will need to undertake reserved matters/ detailed planning processes, discharge planning conditions and then commence development.

Market Interest

10. Please indicate what level of market interest there is/has been in the site. Please include relevant dates in the comments section.

None

Comments

The site has not been marketed. The landowners previous site promotion (Hethersett North 1,195 homes 2011/1804/O), has been purchased by a consortium of developers and the development has now commenced.

Delivery

11a. Please indicate when you anticipate the proposed development could be begun.

5 - 10 years (between April 2021 and 2026)

11b. Once started, how many years do you think it would take to complete the proposed development (if known)?

It is anticipated that the development would follow the development of the existing permitted site (1,195 homes ref: 2011/1804/O). Depending on development trajectories and the housing market this could be around 2023-25. However, certain parcel of the promoted site could be brought forward sooner.

Viability

12a. You acknowledge that there are likely to be policy requirements and Community Infrastructure Levy (CIL) costs to be met which will be in addition to the other development costs of the site (depending on the type and scale of land use proposed). These requirements are likely to include but are not limited to: Affordable Housing; Sports Pitches & Children's Play Space and Community Infrastructure Levy

Yes

12b. Do you know if there are there any abnormal costs that could affect the viability of the site e.g. infrastructure,

Yes

demolition or ground conditions?	
12c. If there are abnormal costs associated with the site please provide details:	
There could be significant infrastructure costs, utility upgrades (as is the case with all strategic developments). Also, it is anticipated that Thickthorn junction will require upgrading to accommodate significant levels of growth.	
12d. Do you consider that the site is currently viable for its proposed use taking into account any and all current planning policy and CIL considerations and other abnormal development costs associated with the site?	Yes
12e. Please attach any viability assessment or development appraisal you have undertaken for the site, or any other evidence you consider helps demonstrate the viability of the site.	
To follow.
