The development would expand the range of retail and eating out opportunities accessible to the local residents and workers/visitors associated with the neighbouring Bowthorpe Industrial Area. This would reduce the need to travel to access such facilities and result in qualitative improvements to the retail and food and drink provision in this part of Norwich. The proposals would result in economic benefits through the creation of jobs during and after the construction phase. It would also result in a more sustainable use of the site which is currently not used to the full potential.

Local Green Space
If you are proposed a site to be designated as Local Green Space please complete the following questions. These questions do not need to be completed if you are not proposing a site as Local Green Space. Please consult the guidance notes for an explanation of Local Green Space Designations.
6a. Which community would the site serve and how would the designation of the site benefit that community.

Site Features and Constraints
Are there any features of the site or limitations that may constrain development on this site (please give details)?
7a. Site Access: Is there a current means of access to the site from the public highway, does this access need to be improved before development can take place and are there any public rights of way that cross or adjoin the site?
The site is currently accessed from Barnard Road, which connects directly with the A1074. Significant improvements would not be necessary to support the proposed development. There is a public footway along Barnard Road, adjacent to the southern boundary of the site.
7b. Topography: Are there any slopes or significant changes of in levels that could affect the development of the site?
None
7c. Ground Conditions: Are ground conditions on the site stable? Are there potential ground contamination issues?
None known
7d. Flood Risk: Is the site liable to river, ground water or surface water flooding and if so what is the nature, source and frequency of the flooding?
The site lies in the Environment Agency Flood Zone 1 (flooding from rivers and sea is very unlikely). There is a less than 0.1 per cent (1 in 1000) chance of flooding each year.
7e. Legal Issues: Is there land in third party ownership, or access rights, which must be acquired to develop the site, do any restrictive covenants exist, are there any existing tenancies?
None

<p>7f. Environmental Issues: Is the site located next to a watercourse or mature woodland, are there any significant trees or hedgerows crossing or bordering the site are there any known features of ecological or geological importance on or adjacent to the site?</p>
None known
<p>7g. Heritage Issues: Are there any listed buildings, Conservation Areas, Historic Parklands or Schedules Monuments on the site or nearby? If so, how might the site's development affect them?</p>
None known
<p>7h. Neighbouring Uses: What are the neighbouring uses and will either the proposed use or neighbouring uses have any implications?</p>
East - Hotel; West - Business/industrial; North - across the A1074, residential; South - business/industrial. There would be no material impact on amenity as a result of the proposals.
<p>7i. Existing uses and Buildings: are there any existing buildings or uses that need to be relocated before the site can be developed.</p>
The current occupiers of the site (Namco Bowling) have advised that the viability of their use of this site is reducing, reflecting the difficulties of a stand-alone leisure facility in competition with similar facilities that are part of a wider and more varied offer and with far greater footfall. The current use has no direct need to relocate unless a more viable location became available.

Other Relevant Information

13. Please use the space below to for additional information or further explanations on any of the topics covered in this form

The site owners' commercial letting advisor has been unable to secure interest from an alternative leisure operator (D2) for this site, with such occupiers preferring locations where there are clusters of similar and complementary uses, generating higher footfall.

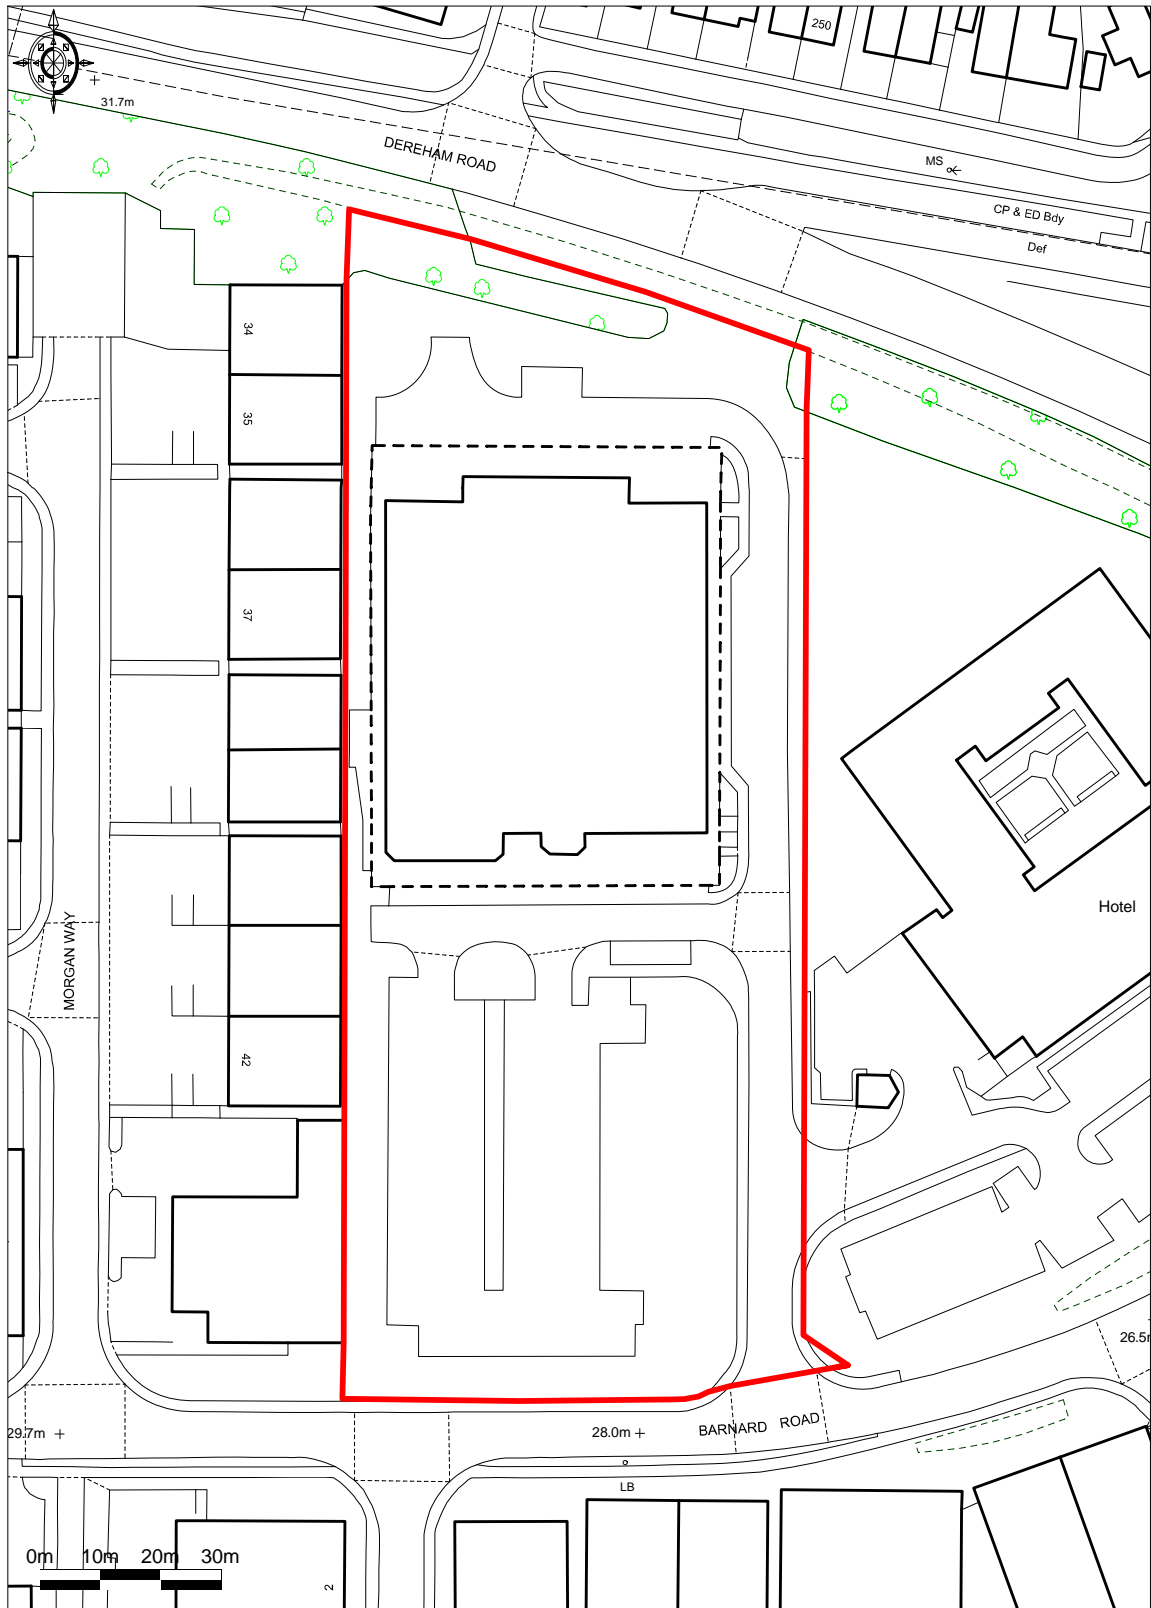

Negotiations with an A1 foodstore operator are at an advanced stage and expressions of interest have been secured from a number of A3 operators.
