LODDON AND CHEDGRAVE

The combined settlement of Loddon and Chedgrave is identified as a key service centre in the GNLP. There is a range of services including shops, infant, junior and high school, medical centre, library, public houses and industrial estate. The settlement is well served by buses linking to Norwich, Beccles and Lowestoft, and a development of 200 homes north of George Lane, Loddon is currently being progressed.

Issues to take into account when assessing the potential for future development include a substantial Conservation Area covering the town centre of Loddon and extending into Chedgrave, plus a separate Conservation Area around the Church of All Saints. The town centre is characterised by closely built up streets, interspersed with important open spaces, such as Church Plain. The Broads Authority area extends into the town centre, along the valley of the River Chet. The A146 bypass defines the extent of the settlement to the south and west, with the river valley that separates Low and High Bungay Road from the development off Beccles Road providing a noticeable green break.

Two sites are identified as preferred options providing for at least 200 new homes in the key service centre (one for 180 homes, one for 20 homes). There are no carried forward residential allocations and a total of 200 additional dwellings with planning permission. This gives a total deliverable housing commitment for Loddon and Chedgrave of 400 homes between 2018 – 2038.

All new and carried forward allocations are expected to address standard requirements associated with development. These vary from place to place but are likely to include mitigations for flood risk (as well as SUDs), highways improvements, safeguarding of minerals resources, land remediation, measures to protect the environment, biodiversity, and landscape intrusion.
New allocations are proposed

POLICY GNLP0312 Land to the east of Beccles Road Loddon (approx. 7.70 ha) is allocated for residential development. This site is likely to accommodate at least 180 homes, 33% of which will be affordable.

More homes may be accommodated, subject to an acceptable design and layout being achieved and any infrastructure issues addressed.

The development will be expected to address the following specific matters:

- Two points of vehicular access to be provided into the site.
- Areas of surface water flooding on the Beccles Road boundary to be addressed:
- Design and layout must address the topography of the site and potential impact on views.
- The trees/hedgerows surrounding the site will be protected, enhanced and incorporated into the scheme.
- The design and layout of the scheme must consider amenity impacts relating to the nearby business area.

Notes

GNLP0312: This site is preferred for allocation as it is well related to the form and character of the settlement and is less constrained than other sites promoted, which raise access or townscape and heritage concerns. The allocation is subject to two points of access. The site rises to the north so development on this site would be significantly more visible in the landscape than the dwellings and units opposite, and the design of the development would need to address the issues with the topography of the site.

- Broads Authority
POLICY GNLP0463 Land off Langley Road, Chedgrave (approx. 3.07 ha) is allocated for residential development. This site is likely to accommodate at least 20 homes, 33% of which will be affordable.

More homes may be accommodated, subject to an acceptable design and layout being achieved and any infrastructure issues addressed.

The development will be expected to address the following specific matters:

- A design brief for landscape impacts will be required.
- Visibility improvement and frontage development at Langley Road to the north.
- A 2.0m footway will be required to link site frontage with existing facilities in Loddon.
- If access is via Snows Lane, it will need to be widened to 5.5m with a 2.0m footway.

Notes
GNLP0463: Although this site is elevated and would be quite prominent it is preferred for allocation subject to a good layout to work with its setting in the landscape. A design brief would be needed. It is not considered appropriate for the 70 homes originally suggested. The allocation is subject to visibility improvements and frontage development at Langley Road to the north. A 2m footway will be required at the site frontage to link with existing facilities. If access is to be via Snows Lane then it will need to be widened and a footway provided.
Existing allocations to be carried forward

**POLICY LOD 3** Land adjacent to Loddon Industrial Estate, Little Money Road, Loddon (approx. 1.84 ha) is allocated for employment uses in Classes B1/B2/B8.

The development will be expected to address the following specific matters:

- Local highways improvements and safe access, with road access to the site from Little Money Road.
- Landscape enhancements to western and southern boundaries.
- 15m exclusion zone around pumping station at northern end of site.
- Wastewater infrastructure capacity must be confirmed prior to development taking place.
- Historic Environment Record to be consulted to determine any need for archaeological surveys prior to development.

**Notes**
LOD 3: The site was allocated in 2015 as part of the current local plan but has not yet been developed. The principle of development is already accepted and it is expected that development will take place within the new local plan time-period. The site is re-allocated for employment/commercial development.

</thead>
<tbody>
<tr>
<td>Land to the south of the A146, Loddon</td>
<td>GNLP0347</td>
<td>3.41</td>
<td>Storage and distribution hub</td>
<td>This site is not considered to be suitable for allocation as it is disconnected from the built edge of Loddon and the local highway authority have raised concern, saying it is not possible to achieve a suitable access. In addition, evidence suggests that current committed land is more than sufficient in quantity and quality to meet the employment growth needs in Greater Norwich meaning there is no need to allocate any additional large scale employment sites in the new local plan.</td>
