**5d. Please describe any benefits to the Local Area that the development of the site could provide.**

The site would deliver a range of high quality market and affordable homes together with associated facilities. The development would also provide an appropriate contribution towards green infrastructure, children's play, sports and community facilities.

<b>Site Features and Constraints</b>
Are there any features of the site or limitations that may constrain development on this site (please give details)?
<b>7a. Site Access:</b> Is there a current means of access to the site from the public highway, does this access need to be improved before development can take place and are there any public rights of way that cross or adjoin the site?
Current substantial road frontage onto Reepham Road. Would easily accommodate new access. No public right of way across site.
<b>7b. Topography:</b> Are there any slopes or significant changes of in levels that could affect the development of the site?
No
<b>7c. Ground Conditions:</b> Are ground conditions on the site stable? Are there potential ground contamination issues?
Ground conditions are stable. No likely ground contamination issues.
<b>7d. Flood Risk:</b> Is the site liable to river, ground water or surface water flooding and if so what is the nature, source and frequency of the flooding?
No flood risk.
<b>7e. Legal Issues:</b> Is there land in third party ownership, or access rights, which must be acquired to develop the site, do any restrictive covenants exist, are there any existing tenancies?
Site in single ownership. No legal issues affecting delivery of site.

**7f. Environmental Issues:** Is the site located next to a watercourse or mature woodland, are there any significant trees or hedgerows crossing or bordering the site are there any known features of ecological or geological importance on or adjacent to the site?

Site lies adjacent to Drayton Wood County Wildlife Site. The site's western boundary is well treed. Development on the site would respect and enhance the importance of the CWS.

**7g. Heritage Issues:** Are there any listed buildings, Conservation Areas, Historic Parklands or Schedules Monuments on the site or nearby? If so, how might the site's development affect them?

There are no listed buildings on the site and the site does not lie in a Conservation Area.

**7h. Neighbouring Uses:** What are the neighbouring uses and will either the proposed use or neighbouring uses have any implications?

The site relates well to the existing built up area of Hellesdon with an adjacent boundary to existing homes in Westwood Drive. The western and eastern extents of the site are bounded by substantial physical features of Reepham Road and Drayton Wood. A care home is located within Drayton Wood.

The development would need to ensure a high quality design which would respect the amenities of existing residents and the ecological value of Drayton Wood.

No existing uses or buildings to be re-located.
