

## Greater Norwich Call for Sites Submission Form

FOR OFFICIAL USE ONLY	
Response Number:	0378
Date Received:	

This form is to be filled out by any interested parties who want to promote a site for a specific use or development to be allocated in the Greater Norwich Local Plan.

Only one form should be submitted for each individual site i.e. it is not necessary for a separate form to be completed for each landowner on a single site in multiple ownerships. However, a separate form must be completed for each individual site submitted.

Your completed form should be returned to the Greater Norwich Local Plan team no later than **5pm on Friday 8 July 2016**.

By email: [callforsites@gnlp.org.uk](mailto:callforsites@gnlp.org.uk)

Or, if it is not possible submit the form electronically,

By Post to:

*Greater Norwich Local Plan Team*  
PO Box 3466  
Norwich  
NR7 7NX

The responses received as part of the Greater Norwich Local Plan Call for Sites will be published and made available for public viewing. By submitting this form you are consenting to the details about you and your individual site(s) being stored by Norfolk County Council and shared with Broadland District Council, Norwich City Council and South Norfolk District Council, and that the details of the site will be published for consultation purposes.

Further advice and guidance can be obtained by visiting the Greater Norwich Local Plan website or by contacting the Greater Norwich Local Plan team directly:

<b>3c. If the site is in multiple landownerships do all landowners support your proposal for the site?</b>	Yes <input type="radio"/>	No <input type="radio"/>
<b>3d. If you answered no to the above question please provide details of why not all of the sites owners support your proposals for the site.</b>		

<b>Current and Historic Land Uses</b>		
<b>4a. Current Land Use</b> (Please describe the site's current land use e.g. agriculture, employment, unused/vacant etc.)		
Agricultural		
<b>4b. Has the site been previously developed?</b>	Yes <input type="radio"/>	No <input checked="" type="radio"/>

**4c. Describe any previous uses of the site.** (please provide details of any relevant historic planning applications, including application numbers if known)

None, only agricultural use

**Proposed Future Uses**

**5a. Please provide a short description of the development or land use you proposed** (if you are proposing a site to be designated as local green space please go directly to question 6)

Residential development for approximately 100-125 dwellings, associated open space and possible community facilities.

**5b. Which of the following use or uses are you proposing?**

Market Housing	<input checked="" type="checkbox"/>	Business & offices	<input checked="" type="checkbox"/>	Recreation & Leisure	<input type="checkbox"/>
Affordable Housing	<input checked="" type="checkbox"/>	General industrial	<input type="checkbox"/>	Community Use	<input type="checkbox"/>
Residential Care Home	<input type="checkbox"/>	Storage & distribution	<input type="checkbox"/>	Public Open Space	<input checked="" type="checkbox"/>
Gypsy & Traveller Pitches	<input type="checkbox"/>	Tourism	<input type="checkbox"/>	Other (Please Specify)	

**5c. Please provide further details of your proposal, including details on number of houses and proposed floorspace of commercial buildings etc.**

The site is proposed primarily for residential development. As part of this, it is expected that the necessary percentage of affordable housing and open space would be provided (policy compliant). There is no reason why a mixed use scheme involving potentially care home provision/community uses or employment uses could not form part of any wider application (if a need was identified and supported). Although no details are confirmed, it is envisaged that vehicular access would be provided from Norwich Road to the south or potentially through the adjacent parcel of land to the east, allocated within the adopted Broadland District Council Site Specific Allocations DPD (ACL1). Based on site size, its edge of town location and character of surrounding development, it is proposed to accommodate about 100 - 125 dwellings. The client owns adjacent land to the west should additional capacity be required.

**5d. Please describe any benefits to the Local Area that the development of the site could provide.**

Delivery of a further modest scale of residential development to help support local services/facilities within the town, in addition to other possible community uses (depending on the exact nature of uses within the site).

**Local Green Space**

If you are proposed a site to be designated as Local Green Space please complete the following questions. These questions do not need to be completed if you are not proposing a site as Local Green Space. Please consult the guidance notes for an explanation of Local Green Space Designations.

**6a. Which community would the site serve and how would the designation of the site benefit that community.**

Not applicable.

**6b. Please describe why you consider the site to be of particular local significance e.g. recreational value, tranquillity or richness in wildlife.**

Not applicable.

**Site Features and Constraints**

Are there any features of the site or limitations that may constrain development on this site (please give details)?

**7a. Site Access:** Is there a current means of access to the site from the public highway, does this access need to be improved before development can take place and are there any public rights of way that cross or adjoin the site?

The site is currently in an agricultural use and agricultural access to the larger field exists from the track to the north and from the adjacent agricultural land to the east. Access to the new site could be obtained from either Norwich Road to the south or potentially a link off any new road to be constructed to serve the development permitted on the adjacent parcel of land to the east, which received outline planning permission on 30 January 2015 under application 20141108. There is an existing public right of way which runs along the northern boundary of the site (Acle BOAT2).

**7b. Topography:** Are there any slopes or significant changes of in levels that could affect the development of the site?

There are differences in ground levels within the site, with levels falling from north to south/south-west, these levels however are not considered to prevent the site from coming forward for an alternative use. There is limited boundary planting along the eastern boundary, with trees/hedging along the northern and western boundaries.

**7c. Ground Conditions:** Are ground conditions on the site stable? Are there potential ground contamination issues?

The previous use is agricultural and there is no evidence of any unstable ground and previous uses suggest no risk of contamination.

**7d. Flood Risk:** Is the site liable to river, ground water or surface water flooding and if so what is the nature, source and frequency of the flooding?

The site falls within flood zone 1 as defined by the Environment Agency. The EA website identifies part of the site (south-western corner) as susceptible to surface water flooding, however this is not considered to be a constraint to the whole site coming forward for development as this area could form a natural landscape feature or form part of any drainage area/strategy.

**7e. Legal Issues:** Is there land in third party ownership, or access rights, which must be acquired to develop the site, do any restrictive covenants exist, are there any existing tenancies?

The site is currently farmed by a County Farms tenant as part of two Farm Business Tenancies, the larger field ending August 2016 and the smaller triangular field ending in October 2027. The landowner can however serve 12 months notice as part of the 2027 tenancy from the date any planning permission is granted for control of the land, whereby the land would come back into the clients control.

**7f. Environmental Issues:** Is the site located next to a watercourse or mature woodland, are there any significant trees or hedgerows crossing or bordering the site are there any known features of ecological or geological importance on or adjacent to the site?

There are a handful of existing trees along some of the boundaries of the site, which would be retained as part of any development. Additionally, the landowner planted a woodland belt to the far west which is now substantial, and would assist in providing a natural screen/edge to the development when approaching from the west.

**7g. Heritage Issues:** Are there any listed buildings, Conservation Areas, Historic Parklands or Schedules Monuments on the site or nearby? If so, how might the site's development affect them?

None

**7h. Neighbouring Uses:** What are the neighbouring uses and will either the proposed use or neighbouring uses have any implications?

The site is currently in agricultural use. The adjacent parcel of land to the east is allocated for residential use under ACL1 of the Site Allocations DPD. It is not envisaged that there would be any conflict between the proposed housing development to the east, and the proposed site, subject to normal design and layout considerations.

**7i. Existing uses and Buildings:** are there any existing buildings or uses that need to be relocated before the site can be developed.

No

**7j. Other:** (please specify):

None

In view of the size of site, it is anticipated that the site would be developed in a three to four year period.	

<b>Viability</b>			
<b>12a. You acknowledge that there are likely to be policy requirements and Community Infrastructure Levy (CIL) costs to be met which will be in addition to the other development costs of the site (depending on the type and scale of land use proposed). These requirements are likely to include but are not limited to: Affordable Housing; Sports Pitches &amp; Children's Play Space and Community Infrastructure Levy</b>	<input checked="" type="checkbox"/>		
	Yes	No	Unsure
<b>12b. Do you know if there are there any abnormal costs that could affect the viability of the site e.g. infrastructure, demolition or ground conditions?</b>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
<b>12c. If there are abnormal costs associated with the site please provide details:</b>			
<b>12d. Do you consider that the site is currently viable for its proposed use taking into account any and all current planning policy and CIL considerations and other abnormal development costs associated with the site?</b>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

**12e. Please attach any viability assessment or development appraisal you have undertaken for the site, or any other evidence you consider helps demonstrate the viability of the site.**

The site is currently in agricultural use. In the majority there are no ground conditions or contamination constraints which would suggest abnormal costs. Infrastructure costs are likely to not be abnormal for a greenfield site. In view of the owners experience of promoting sites for development and market interest there is considered no reason to prepare a detailed development appraisal to support this submission.

**Other Relevant Information**

**13. Please use the space below to for additional information or further explanations on any of the topics covered in this form**

I attach a site location plan with potential access points. This will be supplemented in due course by a more detailed Planning Statement/Appraisal to support the suitability of the site during the Development Plan preparation process.
