

## Site Allocation

### Delivery Statement / Statement of Common Ground (SoCG)

#### Explanatory Note and Disclaimer:

The GNLP must provide the homes Greater Norwich requires. To do this, it must show that Local Housing Need (LHN), as set by the standard method in national planning guidance, will be delivered. The submitted plan also includes a delivery buffer to address fallout, plus additional flexibility to allow for higher levels of housing growth.

The new homes must be delivered in a timely manner. The sites in the plan must therefore meet the National Planning Policy Framework (NPPF) definition of being either deliverable within 5 years of its adoption or developable within the plan period to 2038.

To evidence when homes will be built, the GNLP Team requested site promoters to provide a site allocation Statement of Common Ground (SoCG) allowing landowners, agents, and developers with a site allocation in the GNLP to explain how and when their scheme will be completed, and comply with the plan's policies once adopted.

Each site allocation SoCG consists of a 7-question template which the GNLP Team asked site promoters to complete. The responses are in the words of the site promoter. Whilst all parties have applied their best endeavours to make each SoCG up-to-date and accurate, agreement of a SoCG does not indicate acceptance of a specific development proposal by the Greater Norwich authorities other than that as set out in the site allocation policy. The appropriateness of a proposal would need to be determined as part of a planning application.

The Greater Norwich authorities consider the plan to be sound but recognise modifications may be proposed by the inspectors. The SoCG does not prevent the authorities from agreeing changes to the GNLP. Similarly, the authorities recognise that site promoters who have signed a SoCG may also seek changes to the plan. However, the SoCG is valuable in demonstrating that the land in question is available and has realistic prospects for development.
