

## **Matter 2 Issue 2**

**Subject:** incorrect figures quoted in GNLP report

I will be very brief

The report suggests that only 2200 houses have been provided in Wymondham and its surrounds, being the figure quoted on the fairly useless Wymondham Action Plan, as evidenced by the number actually built which is 3335.

This lower figure is being used to justify more houses being built and being wrong should NOT be used as part of the plan

I can provide details if you wish

Julian Halls Wymondham Town councillor and Wymondham South District councillor
