Hello Annette

My apologies I had the deadline to submit a further response to the Inspectors Matters. I thought we had until 5pm but looking at your email its actually midday. I do only have one further matter to raise if still possible.

Regarding Matter 13, Issue 2 relating to site reference 'Longwater Employment Area, Costessey Ref CO3/GNLPSL2008' listed under Urban Fringe I would like to respond to question 4 which states the following:

4. Is any proposed extension to the site justified and supported by the evidence?

Veolia response:

In response to this I can confirm a new industrial operation has since been granted planning permission at the former EMR site and will occupy the area that the proposed amended employment boundary line will extend to. Evidence of this is planning permission FUL/2019/0067 dated 23rd October 2020 as granted by Norfolk County Council.

I appreciate if this response is not accepted due to the late response. I should highlight though that this information is already in the public domain and I thought worth highlighting for the Inspector's consideration of amending the boundary line.

Thanks,
Kind regards

Belinder Gill
